

LIESL CODRINGTON

18 YEARS EXPERIENCE

85+ PROJECT INVOLVEMENTS

MASTER OF ENVIRONMENTAL PLANNING

BACHELOR OF ARTS (GEOGRAPHY)

MIAP2, MEIANZ

As a Sustainability Strategy, Policy and Research Consultant, Liesl offers over a decade of senior level experience working with State and Federal Governments, NGOs and private companies to advance sustainable development principles. She brings a wealth of experience in a diverse range of areas including renewable energy, climate change, water policy, urban and social planning, infrastructure development and community engagement.

Intrinsically people- oriented, Liesl's core value rests on an ability to utilise a warm approach and palpable commitment to sustainability to secure consensus across diverse stakeholder groups, pulling people together in the pursuit of goals. This positivity and authenticity of character, combined with a keenly analytical mind that enables the recognition and assessment of multiple perspectives in the definition of strategic definition vision, has been the foundation of her success to date.

curious, engaged, considered
